V/v thông báo các khóa học
tại Israel

Kính gửi: Sở Nội vụ Thành phố Hồ Chí Minh

Ngày 05 tháng 9 năm 2016, Đại sứ quán Israel tại Hà Nội gửi Sở Ngoại vụ Công hàm số EI.05.08.16 thông báo các khóa học ngắn hạn do Cơ quan hợp tác Quốc tế, Bộ Ngoại giao Israel tổ chức tại Israel. Cụ thể như sau:

1. Khóa học “Quản lý môi trường đối với các khu bảo tồn thiên nhiên”: thời gian học từ 27/11 đến 13/12/2016, hạn nộp hồ sơ 20/9/2016.
2. Khóa học “Dinh dưỡng trong môi trường biến đổi toàn cầu”: thời gian học từ 21/11 đến 15/12/2016, hạn nộp hồ sơ 20/9/2016.
3. Khóa học “Xây dựng cộng đồng bền vững – Lãnh đạo, giới và môi trường”: thời gian học từ 05 đến 22/12/2016, hạn nộp hồ sơ 12/9/2016.

Mọi chi phí liên quan đến khóa học bao gồm học phí, chi phí đi lại tại Israel, tiền ăn ở sẽ do chính phủ Israel tài trợ. Tiền vé máy bay hai chiều Việt Nam – Israel sẽ do cơ quan cử học viên hoặc học viên tự chi trả.

Sở Ngoại vụ xin chuyển công hàm thông báo của Đại sứ quán Israel để Sở Nội vụ xem xét, giới thiệu ứng viên tham dự các khóa học nêu trên cho Đại sứ quán Israel tại Hà Nội.

Trân trọng.

Nơi nhận:

- Như trên;
- Lưu: HC, TCCB, L_03.

EMBASSY OF ISRAEL
HA NOI

Ngày 28 tháng 08 năm 2016

Số: EI.05.08.16

Đại sứ quán Israel tại Hà Nội xin kính chào Sở ngoại vụ Thành phố Hồ Chí Minh và xin trân trọng đề nghị một việc như sau:

Trong khuôn khổ chương trình đào tạo của Cơ quan Hợp tác Quốc tế, Bộ Ngoại Giao Israel (MASHAV), chúng tôi xin vui mừng thông báo để Quý Cơ quan biết rằng Bộ Ngoại giao dành học bổng cho các cán bộ Việt Nam các khóa học tại Israel như sau:

1. Khóa học "Quản lí môi trường đối với các khu bảo tồn thiên nhiên" (Environmental Management of Nature Parks and Reserves)

Thời gian học: 27/11 - 13/12/2016. Hạn nộp hồ sơ: 20/09/2016.

2. Khóa học "Dinh dưỡng trong môi trường biến đổi toàn cầu (Nutrition in a changing global environment)

Thời gian học: 21/11 - 15/12/2016. Hạn nộp hồ sơ: 20/09/2016.

3. Khóa học "Xây dựng Cộng đồng bền vững- Lãnh đạo, giới và môi trường" (Building Sustainable communities: Leadership, Gender, and the Environment)

Thời gian học: 05 - 22/12/2016. Hạn nộp hồ sơ: 12/09/2016.

Mọi chi phí liên quan đến khóa học bao gồm học phí, chi phí đi lại tại Israel, tiền ăn ở sẽ do chính phủ Israel tài trợ. Tiền vé máy bay hai chiều Việt Nam – Israel sẽ do cơ quan cử học viên hoặc học viên tự chi trả.

Yêu cầu ứng viên có bằng chuyên ngành, tiếng Anh tốt. Đính kèm là chi tiết khóa học và Mẫu đơn. Học viên sẽ được mời phỏng vấn.

Thông tin thêm xin liên lạc với cô Nguyễn Bảo An, điện thoại (04) 38433140 (máy lẻ 511), di động 0913 213 114, email: mashav@hanoi.mfa.gov.il

Đại sứ quán mong sớm nhận được phúc đáp của Quý Cơ quan.

Nhân dịp này, Đại sứ quán Israel tại Hà Nội xin gửi Quý cơ quan lời chào trân trọng.

The Arava Institute for Environmental Studies

invite professionals

to participate in the

International Course:

**Environmental Management
of Nature Parks and Reserves**

November 27th – December 13th, 2016

About the Course

Background

Ecosystem services are defined as the benefits provided by ecosystems to humans.

Ecosystem services are commonly valued in ecological, economic or social terms. They have emerged as a prominent conceptual link between environment and society. Ecosystem services have managed to bridge the gap between nature conservation for the sake of nature and the concern for people's welfare. The argument for the protection of species and ecosystems can also be made in terms of the role of ecological systems in sustaining people's livelihoods and quality of life. Understanding how protection and proper management of ecosystems benefits society is important to professionals who work in environmental management because it provides them with tools to communicate this importance to stakeholders and the public. It has been shown that when the public understands the value of ecosystems, it is easy to gain the support that is so vital to nature conservation.

This training program, to be held at the Arava Institute for Environmental Studies located on Kibbutz Ketura in the south of Israel, provides an opportunity for mid-level professionals to gain knowledge about the basics of environmental management and ecosystem services. The primary topics include the principles of ecosystem management, ecosystem services and their value. We will teach participants the vocabulary and tools to work with government offices and ministries. Our course will include lectures and seminars from ecologists, nature reserve rangers, economists, sociologists and representatives from the Israeli Ministry of Environmental Protection.

The training program will utilize the extensive knowledge of the Arava Institute Center for Hyper Arid Socio-Ecology. In this course we will explain how arid lands function and what services they provide. We will teach what ecosystem services are, give examples of how they benefit society and how better management of ecosystems benefits societies. We will discuss different management styles with an emphasis on biosphere reserves. We will show how ecosystem services can be assessed, valued, priced and be translated to management practices. We will focus on the differences in management between several types of eco-systems. The course format will also include elements of renewable energy use, sustainable agriculture and water resource management in the framework of the whole life cycle approach of the Arava Center for Sustainable Development.

Aims

- Understand the concept of ecosystem services, its terminology, the division into categories, and its ecological, anthropological and economic aspects
- Learn how to build a management scheme based on the Ecosystems Services concept
- Assess Ecosystem Services values under different circumstances and scenarios of park management
- Learn the concept of a biosphere reserve and its management
- Learn about off-grid technologies as supporting tools in the operation and management of biosphere reserves
- Understand the structure and function of arid land ecosystems
- Understand the pressures and conflicts on arid lands
- Learn to teach rangers, government officers, and the public about Ecosystem Services
- Prepare a park management plan based on the Ecosystem Services Principle

Main Subjects

- Review of the principles and concepts of Ecosystems
- Using an Ecosystem Services approach to understand the importance of nature to human society
- The study of human-nature interactions including the conflicts of nature conservation and management
- Looking at the Israeli model of nature reserves and biosphere reserves in solving human-nature tensions
- Gaining the necessary tools for the management of ecosystems, including financial aspects
- Using a life cycle approach to resolve human-nature tensions

Application

Application Requirements

The target audience for this training program is individuals who are interested in expanding their knowledge and initiatives into ecosystem management, environmental economics, and environmental management.

This training program is intended for mid-level professionals involved in nature preservation, working for government, non-governmental organizations, decision-making bodies, academia and the private sector.

It will be especially beneficial to heads of rural councils and environmental officers of rural councils, government officers of environment and tourism ministries, biosphere reserve managers, park managers and rangers.

The program will be conducted in English. It is essential that the participants have a high level of reading, writing and speaking in English.

Competition for the MASHAV Courses is merit-based and selection will be made on the basis of academic excellence, professional aptitude, leadership potential in the field of Environmental Management and Ecosystem Services, and knowledge of English.

Funding for the MASHAV Courses is limited and the program is highly competitive; not all qualified applicant will receive awards.

Applications should be submitted no later than September 27th, 2016. A copy of the application should be sent to the Israeli Embassy nearest to you as well as to Ms. Tali Adini of the Arava Institute: tali@arava.org

Application forms

Application forms and other information may be obtained at the nearest Israeli mission or at MASHAV's website: <http://mashav.mfa.gov.il/MFA/mashav/Courses/Pages/default.aspx>.

Completed application forms, including the medical form, should be sent to the relevant Israeli mission in the respective country.

General Information

Arrival and Departure

Arrival date: Sunday November 27th, 2016
Opening date: Monday November 28th, 2016
Closing date: Tuesday December 13th, 2016
Departure date: Wednesday December 14th, 2016

Participants must arrive at the training center on the arrival date, and leave on the departure date. Early arrivals/late departures if required, must be arranged by the participants themselves, directly with the hotel/center, and must be paid for by the participant him/herself.

Location and Accommodation

MASHAV awards a limited number of scholarships. The scholarship covers the cost of the training program including lectures and field visits, full board accommodation in double rooms (two participants per room), health insurance (see below) and transfers to and from the airport. Airfares and daily allowance are not included in the scholarship.

The course will be held at the Arava Institute for Environmental Studies, situated at Kibbutz Ketura in the Arava Desert, a four hour drive from the center of Israel. Kibbutz Ketura is a collective community located approximately 50 kilometers from the Red Sea resort city of Eilat in the south of Israel. In Nov-Dec, the weather will be warm; temperatures will range from 20°- 30°C during the day and down to 10°C at night. For more information on Kibbutz Ketura, you can access the website at: <http://ketura.org.il/>

Health Services

Medical insurance covers medical services and hospitalization in case of emergency. It does not cover the treatment of chronic or serious diseases, specific medications taken by the participant on a regular basis, dental care and eyeglasses. Health authorities recommend that visitors to Israel make sure they have been inoculated against tetanus in the last ten years. Subject to the full binding policy conditions. Participants are responsible for all other expenses.

About MASHAV

MASHAV – Israel's Agency for International Development Cooperation is dedicated to providing countries with the best of Israel's experience in development and planning. As a member of the family of nations, The State of Israel is committed to fulfilling its responsibility to contribute to the fight against poverty and to the global efforts to achieve sustainable development. MASHAV, representing Israel and its people, focuses its efforts on capacity building, sharing relevant expertise accumulated during Israel's own development experience to empower governments, communities and individuals to improve their own lives.

MASHAV's approach is to ensure social, economic and environmental sustainable development, and is taking active part in the international community's process of shaping the Post-2015 Agenda, to define the new set of the global Sustainable Development Goals (SDGs).

MASHAV's activities focus primarily on areas in which Israel has a competitive advantage, including agriculture and rural development; water resources management; entrepreneurship and innovation; community development; medicine and public health, empowerment of women and education. Professional programs are based on a "train the trainers" approach to institutional and human capacity building, and are conducted both in Israel and abroad. Project development is supported by the seconding of short and long-term experts, as well as on-site interventions. Since its establishment, MASHAV has promoted the centrality of human resource enrichment and institutional capacity building in the development process – an approach which has attained global consensus.

About the Arava Institute for Environmental Studies

The Arava Institute for Environmental Studies is the premier environmental teaching and research program in the Middle East, preparing future Arab and Jewish leaders to cooperatively solve the region's environmental challenges. Located in the heart of Israel's Arava desert, the Arava Institute is a unique oasis of environmental education, research, and international cooperation.

Students and researchers at the Arava Institute explore a range of environmental issues from a regional, interdisciplinary perspective while learning peace-building and leadership skills. The studies are international in scope, with a student body comprised of Jordanians, Palestinians, Israelis, and North Americans, as well as other nationalities. The Arava Institute gives Jewish, Arab and other students and researchers a unique opportunity to study and live together for an extended period of time; building networks and understanding that will enable future cooperative work and activism in the Middle East and beyond. Here, the idea that nature knows no political borders is more than a belief. It is a fact, a curriculum, and a way of life.

**NUTRITION IN A CHANGING GLOBAL
ENVIRONMENT**

November 21, 2016- December 15, 2016

About the course

Background

In cooperation with the Hebrew University of Jerusalem's Faculty of Agriculture – MASHAV's only academic affiliate – we are pleased to announce the opening of a training and capacity building program on **NUTRITION IN A CHANGING GLOBAL ENVIRONMENT**.

The course will be held in Israel at the Robert H. Smith Faculty of Agriculture, Food and Environment, International School of Agricultural Sciences, in Rehovot from, November 21, 2016- December 15, 2016.

AIMS

Major changes have occurred in the global diet. In the past, malnutrition and infectious diseases were of primary concern. They remain a challenge, but today we also face an emerging trend towards over nutrition and chronic diseases (cardiovascular, diabetes, cancer). Nutrition transition has made fast-food, high in fats and simple sugars, the preferred menu for millions of individuals around the world and in particular for growing percentages of populations in developing countries. More and more processed foods are available and foods made from natural, locally-grown produce are disappearing. As we better understand how diet affects our health, it is clear that drastic dietary changes must be made.

First, the physiological needs of each age group must be understood, followed by appropriate dietary recommendations that will promote good health. It is also evident that exposures throughout the lifespan, including in utero, affect long term health. Health professionals should have the tools to carry out critical evaluation of the most recent nutritional studies and implement appropriate changes in the community. "Informed" food choices based on sound scientific evidence can insure good nutrition for all.

OBJECTIVES

The program's objectives are:

- To provide an overview of the nutritional needs of different populations.
- To understand current nutritional guidelines established to provide optimal dietary intake for all age groups.
- To critically examine how nutritional recommendations are made and to evaluate epidemiological and clinical evidence.
- To understand the lifespan approach to nutrition.
- To discuss emerging trends in modern nutritional sciences.
- To develop new tools for implementing nutritional recommendations.

MAIN SUBJECTS

This program's topics of study will include:

- Nutrition throughout the life-cycle: infants, children, adolescents, mothers, adults and the elderly.
- Understanding evidence-based nutrition.
- The obesity epidemic.
- Malnutrition.
- Fetal Programming.
- Functional Foods.
- Nutrigenomics- how nutrients interact with genes.
- Supplementation and fortification.
- Nutrition in chronic disease.
- Nutrition transition.

STUDY CONDITIONS

Classes will be held at the Faculty's Rehovot campus, where there are laboratories, advanced research equipment and the central library of Agricultural Science.

Around-the-clock computer access will be provided, and computers will be used extensively.

We recommend that participants who own a personal computer bring it with them for their own convenience.

Scientific material and homework will be assigned and graded.

Professional field trips will be held.

Full attendance is required.

*We reserve the right to make changes in the academic program

APPLICATION

Application Requirements

COURSE COMPLETION

Each participant will prepare a seminar presentation, which will be reviewed and graded. This presentation should apply knowledge acquired during the course to a nutritional, public health challenge facing your country (for example: obesity, AIDS, iodine deficiency, etc.). Participants are advised to bring with them digitalized data relevant to their countries. On completion of the course and fulfillment of its requirements, participants will receive certificates, which will be accredited by many universities.

Requirements

Candidates interested in attending this program require:

- M.Sc. degree or above in nutrition, dietetics, medicine, bio-chemistry, health education, or a related field, from a recognized university. (A detailed record of studies and copies of degrees must be included with application forms.)
- Documentation of academic studies conducted in English OR a TOEFL score of at least 89 on the internet-based scale OR an internationally recognized equivalent. (The language of instruction is English. Therefore, participants whose native tongue is not English, must furnish proof of proficiency in this language.)
- Professional experience in the field is recommended (at least 3 years).
- This course is designed for public health practitioners, nutritionists, dietitians, health educationists, and academicians in relevant fields.
- An official certificate of good health signed and stamped by a doctor.
- Two letters of recommendation are required from the candidate's place of work or university.

Application forms

Application forms may be obtained from the nearest Israeli diplomatic or consular representative or can be downloaded from the website of the Israel Foreign Ministry, MASHAV Study Programs at:

<http://www.mashav.mfa.gov.il/MFA/mashav/Courses/Pages/default.aspx>

Completed applications MUST be sent directly to the Israeli representative in your country by September 27, 2016. In addition, please send a copy of the forms in PDF format (and not JPEG) to the Faculty by email to: randyl@savion.huji.ac.il.

General Information

Arrival and Departure

Arrival date: 21/11/2016

Opening date: 22/11/2016

Closing date: 15/12/16

Departure date: 15/12/16 late afternoon or 16/12/16 during the day

Participants must arrive at the training center on the arrival date, and leave on the departure date. Early arrivals/late departures if required, must be arranged by the participants themselves, directly with the hotel/center, and must be paid for by the participant him/herself.

Weather

The weather in Israel during the winter months is varied, approximately 5-20 degrees Celsius. There may be some days where light clothing is appropriate, but it might also rain and be quite cool during the season. Participants are requested to bring clothes suitable for outdoor activities including a warm jacket and comfortable walking shoes. We also recommend that you bring some light sweaters, long-sleeved shirts, a rain coat and an umbrella.

Location and Accommodation

MASHAV awards a limited number of scholarships. The scholarship covers the cost of the training program including lectures and field visits, full board accommodation, health insurance (see below) and transfers to and from the airport. **Airfares and daily allowance** are not included in the scholarship.

Health Services

Medical insurance covers medical services and hospitalization in case of emergency. It does not cover the treatment of chronic or serious diseases, specific medications taken by the participant on a regular basis, dental care and eyeglasses. Health authorities recommend that visitors to Israel make sure they have been inoculated against tetanus in the last ten years. Subject to the full binding policy conditions. Participants are responsible for all other expenses.

Accommodations: The course will be held at The Hebrew University's Robert H. Smith Faculty of Agriculture, Food & Environment, situated in Rehovot. Participants will be accommodated in single bedroom accommodation in a shared apartment will be provided in our fully equipped guest house on campus.

About MASHAV

MASHAV – Israel's Agency for International Development Cooperation is dedicated to providing developing countries with the best of Israel's experience in development and planning. About The Hebrew University of Jerusalem

The Hebrew University of Jerusalem was opened in 1925, preceding the establishment of the State of Israel by more than two decades. The University was designed to be a world class institution of higher learning and research. Today, the Hebrew University comprises seven faculties, 15 schools, some 60 research centers, a student body of about 23,000 and a tenured-track faculty of some 1,500. One third of its enrollment is at the M.Sc. and Ph.D. level.

The Robert H. Smith Faculty of Agriculture, Food & Environment

The Hebrew University's Robert H. Smith Faculty of Agriculture, Food & Environment was established in 1942 in Rehovot, a city at a distance of some 55 km from the main campus of the University in Jerusalem. The site was chosen with considerations of its climate and soil conditions. It is the only agricultural institution of higher education in Israel offering university degrees. The International School of Agricultural Sciences is aimed to expose academic graduates from abroad to post-graduate programs, giving them insight into the achievements and research of Israel in general and of the Faculty in particular, expanding their knowledge in specific fields and creating opportunities for international cooperation.

International Course on:

**Building Sustainable Communities:
Leadership, Gender, and the Environment**

December 5th – December 22nd, 2016

About the Course

One of the main outcomes of the Rio+20 Conference was the agreement by Member States to launch a process to develop a set of Sustainable Development Goals (SDGs), which will build upon the Millennium Development Goals and converge with the post 2015 development agenda.

As a member of the 'Global Sustainable Development Criteria' (GSTC) initiative, Israel is committed to the promotion of sustainable communities worldwide.

During this workshop, MASHAV/MCTC will share Israel's best practices and experiences regarding sustainable development and women's empowerment, especially concerning ecological development, community development, and leadership training for women.

Aims

- To understand the holistic approach of sustainable living
- To understand relevant gender equality issues and their relation to environmental management
- To provide tools for environmental sustainability in rural and urban areas through community development and organization
- To become familiar with techniques and methods for environmentally friendly households and communities
- To understand ecological systems including the human component
- To experience and understand the benefits of local resources
- To provide skills and hands-on practices in policy development

Main Subjects

- Interconnectedness of gender equality, citizen participation, and the environment
- Gender mainstreaming
- Environmentally friendly practices
- Community building
- Equal participation of women and men
- Leadership development
- Policy-making for a better future

Application

The international workshop is designed for women and men community leaders, grassroots development officers, national and local government officers, and non-governmental rural development practitioners. Candidates are expected to have academic training or equivalent professional qualifications in relevant subject matter, with at least 5 years of practical experience. They should be presently engaged in promoting sustainable living in their communities.

Application Forms

Application forms and other information may be obtained at the nearest Israeli mission or at MASHAV's website: <http://mashav.mfa.gov.il/MFA/mashav/Courses/Pages/default.aspx>.

Completed application forms, including the medical form, should be sent to the relevant Israeli mission in the respective country no later than **September 12, 2016**.

General Information

Arrival and Departure

Arrival date: 04/12/2016

Opening date: 05/12/2016

About MCTC

The Golda Meir MASHAV "Carmel" International Training Center was founded by Golda Meir in Haifa in 1961. MCTC was the first of its kind in the domain of women's empowerment and since its inception has had a profound influence on both individuals and the policy arena. MCTC endeavors to provide professional women and men from developing countries and transitional societies with the necessary tools for women's empowerment. It aims to enable women to contribute to the socioeconomic development processes of their communities and consequently advance their status. To this end, MCTC conducts training activities, both in Israel and overseas, to advance women's participation in public life.

To date, over the 52 years of MCTC's existence, almost 19,000 women and men from over 150 countries have benefitted from hundreds of training activities. Today, many of them hold key positions at the local or national level, or within the United Nations.
